

**IN THE SPECIFICATION:**

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~striketrough~~.

Please REPLACE paragraph [0019] with the following paragraph:

[0019] Support portions 311a and 311b are formed at one end of the locking lever 310. The support portions 311a and 311b are restricted by predetermined stopping protrusions 241 and deformed to be elastically restored according to a rotation of the locking lever 310. A locking hook 312 fixes the cartridge 20 by being caught in a front groove 22a of ~~groeve~~grooves 22a and 22b formed at the side surface of the cartridge 20. The locking hook 312 is formed at the other end of the locking lever 310. The height of the locking hook 312 relative to the tray 240 is shorter than the thickness of the disc cartridge 20 when accommodated on the tray 240 according to an aspect of the invention. The locking hook 312 is installed to closely contact a surface of the tray 240 on which the cartridge 20 is accommodated.
